NOTE: Any manual entries shown on this report are supported by the Manual Entry Log (EL68).

Auditor's Comments: The county had a machine to go down in the Coastal Carolina Precinct with an internal malfunction error. PrintElect advised them that they would need to extract the votes via flash and update those into ERM. So they read the PEB for the other machine totals and uploaded the results for that one machine from the flash. This can be seen in the greater total in the EL155 and EL152 and the flash value of 38 in the precinct.

Auditor's Comments: The county had a machine to go down in the Coastal Carolina Precinct with an internal malfunction error. PrintElect advised them that they would need to extract the votes via flash and update those into ERM. So they read the PEB for the other machine totals and uploaded the results for that one machine from the flash. This explains the PEB Data discrepancies in the Coastal Carolina precinct.
